Bærums Verk, Norway

The following questions have been sent to Nordisk Sikkerhet concerning the tender.
The questions and Nordisk Sikkerhet's answers are presented below.

Q1: Is it allowed to state the price of the offer in a different currency (e.g., in US dollars or Euro)?

A1: No. Tender prices in the financial proposal shall be quoted in Norwegian Kroners (NOK) as indicated in section 28.1 of the Invitation to Tender. The tenderer's financial proposal in Norwegian Kroners (NOK) will constitute the contract for a successful tenderer.

Q2: Is it allowed to make payments under the concluded contract in a different currency (e.g., in US dollars or Euro)?

A2: As indicated in section 28.2 of the Invitation to Tender, payments under the contract shall be made in Norwegian Kroners (NOK). If so requested by the successful tenderer, the Contracting Authority may, at its discretion, agree to make payments in another freely convertible currency (EUR or USD). In this case, the exchange rate of the Contracting Authority's bank will be applied.

Q3: Is it allowed to provide the Pre-financing guarantee and the Performance guarantee in a different currency (e.g., in US dollars or Euro)? If it is allowed, on what exchange rate shall we calculate the value of the provided guarantees?

A3: The Pre-Financing and Performance Guarantees shall be denominated in the currency in which the contract is payable, i.e. in Norwegian Kroners (NOK). If so requested by the successful tenderer, the Contracting Authority may, at its discretion, agree to denominate the Pre-financing and Performance Guarantees in another freely convertible currency (EUR or USD). In this case, the exchange rate of Norges Bank (the Central Bank of Norway) on the date of issue of the guarantee will be applied.
